PROFESSIONAL SUMMARY

IT Specialist with hands-on experience in system administration, endpoint security, and internal web application development. Proven ability to maintain enterprise IT infrastructure, enhance system reliability, and deliver custom solutions that improve operational efficiency. Skilled in troubleshooting, automation, and supporting business-critical systems in fast-paced environments.

PROFESSIONAL EXPERIENCE

IT Specialist | Rajah Travel Corporation *Makati, Philippines* | *November 2023 – Present*

- Manage and maintain enterprise IT infrastructure, ensuring optimal performance of hardware, software, and network systems across the organization.
- Administer endpoint security solutions, proactively monitoring threats, enforcing security policies, and maintaining compliance with corporate standards.
- Designed and deployed internal web applications, including a Meeting Room Booking System and Queue Management System, improving scheduling efficiency and reducing customer wait times.
- Perform system installations, upgrades, and maintenance to ensure high availability and reliability of business-critical applications.
- Oversee software licensing, renewals, and compliance, minimizing operational risks and ensuring uninterrupted service usage.
- Implement and regularly test backup and disaster recovery procedures to protect critical organizational data.
- Provide Tier 1–2 technical support via WebHelpDesk, resolving incidents efficiently while maintaining strong SLA performance.
- Collaborate with IT leadership to evaluate and implement cost-effective technology solutions that enhance operational productivity.
